

**SUPPLEMENTAL REISSUE APPLICATION DECLARATION BY
THE INVENTORS**

Docket Number (Optional)
1107.78817

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,691,454, granted November 25, 1997, and for which a reissue patent is sought on the invention entitled APC ANTIBODIES,

the specification of which

is attached hereto.

was filed on November 18, 1999 as reissue application number 09/442,489
and was amended on _____

(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verify believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

1. The amino acid sequence provided for the APC protein in SEQ ID NO:7 of the sequence listing contains a minor error.
2. The specification refers to overlapping APC cDNA clones as "defining an ORF of 2842 amino acids" (column 4, line 31) and as coding "for a 2842 or 2844 amino acid polypeptide" (column 31, lines 32-33), rather than the correct number of 2843 amino acids.
